MATHS	Place Value & Measures	Shape & Construction	Directed Number & Sequences	Statistical Calculations	Variables and Equations	Probability	Fractions, Decimals & Percentages	Calculations and Formulae	Function and Graphs	Ratio & Proportions	Statistical Graphs	Transformations	Angles and Lines
DEVELOPING	Rounding to decimal places	Names of Quadrilaterals	Negative numbers temperature	Calculate the Mean Average	Product of prime Factors	The Probability Scale	Fractions of shapes	Area of compound shapes	Interpret a Pie Chart	Ratio to percent and fractions	Long Multiplication	Translations	Angles in a Quadrilateral
SECURE	Metric units for length	Constructing an SSS Triangle	HCF & LCM	Mean from frequency Tables	Solving Equations	Probability of a single event	Adding & Subtracting fractions	Surface Area of a cuboid	Construct a Pie Chart	Share an amount into a ratio	Order of operations	Rotations	Parallel line angles
MASTERS	Speed, Distance and Time	Construct a perpendicular bisector	Nth term of a sequence	Estimate the Mean from Grouped Data	Forming Equations	Sample Space Diagrams	Converting fractions to percentages	Area of a trapezium	Interpret Correlation of Scattergraph	Ratio Differences	Rounding to significant figures	Enlargements	Congruent Triangles

MUSIC	Whole class instrumental work: Programme Music	Find your Voice	Band Skills 1: Introduction to group work	Film Music: Using computers to assemble music	Groove, Head and Solos	Band Skills 2: Group work and rehearsal skills
DEVELOPING	Consider how tempo (speed) and dynamics (volume) play a part in telling a story musically.	Begin to sing out and project your voice more.	Set out to plan your rehearsals, coming up with more clear goals.	Ensure that your music shows consideration towards the mood of the film you are working with.	Begin to think about how your rhythmic improvisation can be used to contrast the steadier rhythms we already have.	Show a more democratic approach to the planning & rehearsal side of things.
SECURE	Think about how you might use more specific instruments to achieve a specific effect.	Sing in tune with others, and show confidence in the use of your voice.	Rehearse effectively using your goals, and practice with intent to improve specific details	Think about how you can further the tension by use of layers.	Start to utilise different melodic ideas that you have already learnt to build improvisation around.	Work on adjusting your targets mid-session to make sure you are progressing in the right direction.
MASTERS	Think about how the tonality of your music can help to convey the mood or image your are trying to get across.	Lead a small ensemble and encourage those who might be more shy to take a bigger role.	Work completely independently and without assistance setting targets.	Consider how you can combine styles of music to assist in building a strong sense of atmosphere in your music.	Work on coming up with more original melodic ideas than material that you already know.	Show an ability to reflect on how well your rehearsal & performance have gone, and what you might do to improve each further.

PHYSICAL EDUCATION	Baseline / Fitness Tests	Invasion Games / Creative 1	Invasion Games / Racket / Creative 2	Health Related Fitness	Invasion Games / Racket / Creative 3	Athletics	Summer Sports - Rounders, Softball, Frisbee and Cricket
