In addition, Mrs Drudge will also be running a lunch session in C25 on Wednesdays for 11b1 English.

These 30-minute revision sessions are designed to support students in developing effective revision habits and preparing for their upcoming mock examinations. The sessions will provide valuable opportunities for students to review key content, strengthen their understanding, and build confidence ahead of the mock exam period. The sessions are also planned when the Late Bus is available.

We would also like to take this opportunity to remind students and parents that the mock examinations are diagnostically important. They provide students with the opportunity to celebrate their successes, identify areas for development, and work with their teachers to formulate an effective plan for future revision and improvement. The outcomes of these assessments will help ensure that every student receives the support and guidance they need as they continue their studies and we hope that all of our students choose to make an effort in these exams. We strongly encourage all students to attend the revision sessions offered by our faculties and to take full advantage of the support available.

In addition to the support students receive in lessons, the school is actively supporting students in their preparation for the mock examination period through dedicated revision sessions during tutor time. During these sessions, students are exploring some of the most effective revision techniques, helping them to revise efficiently, retain knowledge more effectively, and develop confidence in their learning.

Parents and carers play a vital role in helping students to prepare for their examinations. We encourage you to support your young person by discussing their revision plans, helping them

to establish a regular revision routine, providing a quiet space for study where possible, and encouraging them to attend the after-school revision sessions available. We also recommend using the Input, Store, Retrieve (ISR) method at home. These simple but effective strategies can make a significant difference to their confidence, retention of knowledge, and examination performance.

By working together, we can ensure that every student is well prepared to achieve their full potential in the upcoming mock examinations.

Thank you for your continued support.

Yours sincerely,
